

# Imaging Equipment Assessment

The Meridian Imaging Technology Assessment reviews current assets, clinical needs and the market to complement your mission and organizational needs.

We are experts and investors in healthcare technology. Meridian ensures our clients acquire technology at the best possible price, use it at an optimal TCO and dispose of it in a way that recovers a portion of the investment. Our clients receive equipment and financing options that match their organizational goals and budget requirements.

## What to Expect

By spending one full day onsite, our team will interview key staff and review and audit all imaging assets. We will compare current assets to the market and roadmap the acquisition, disposition and financing of the medical assets. Our work will include:

- ✓ Current state analysis
- ✓ Market comparison
- ✓ Basic audit of current holdings
- ✓ Maintenance review
- ✓ "Gap analysis" target n-0 and where they currently are by modality

## Key Benefits:

- New intelligence to make informed business decisions
- Potential to increase capital/cash flow
- Competitive information
- Options to meet budget requirements

## Deliverables:

- Medical imaging review
- Equipment roadmap
