Symmetry

The Washington State Registry now offers fully managed staffing services via SymmetryMSP

Clients deserve flexibility and choice. One size does not fit all. That's why The Washington State Registry and Symmetry Workforce Solutions have partnered to provide you with a fully customized MSP solution. You can pick and choose the service design that's right for your organization's specific culture, desired outcomes, business and financial goals. The technology, processes and delivery model can all be customized to meet your unique needs.

When you partner with The Washington State Registry and Symmetry, we deliver consolidated processes, standardization and automation for the full life-cycle of staffing procurement and a commitment to user satisfaction for our clients, clinicians and trusted supplier partners. In fact, the SymmetryMSP offers suppliers early payment options, immediate access to needs and Vendor Management System (VMS) technology designed and implemented to make it easier for them to fulfill your needs.
